## AV Group to use Kleiberit HotCoating Technology

**Published on : Tuesday, June 24, 2014**

AV Group, Germany is starting HighGloss surface production by using Kleiberit HotCoating Technology.

AV Group, based near Hannover/Germany is well known as a specialist in producing and developing components for furniture industries as well as modulare shop-systems and flooring-solutions.

AV Group is running the production of HighGloss panels with a half-sized HotCoating line. This 1,20 m width line is designed to upgrade melamine faced MDF and particleboard with high resistant and mirror-like or supermatte decorative layers.

AV Group is offering now an innovative range of decors under the brand name Pure Diamond Gloss to the furniture industry as well as to manufacturers of interior fittings and front elements for buildings.
